I&R Schedule of Meetings for 2000

The NERDC Instruction and Research (I&R) Users' Committee serves as an advisory group to NERDC management. The chair of the Committee sits as a member of the NERDC Policy Board. The Committee is charged with representing the needs and interests of faculty, staff, and graduate students who will utilize the NERDC for instructional and/or research computing. The Committee also sits with members of the NERDC Administrative Users' Group to serve as the NERDC Advisory Board to discuss common concerns. Participation on this Committee provides faculty, staff, graduate students, and departmental computing representatives with a unique opportunity to stay apprised of the large-scale computing facilities available to them, to provide direct input to those who set computing policy for our campus, and to influence enhancements to the computing environment according to their needs.
