**Colton App**, Network Services, spent his junior and senior years of high school in dual enrollment at Santa Fe Community College, where he is currently majoring in computer science. He moved with his family to Trenton, FL from Illinois when he was four. His duties with Network Services include moving and installing cable around campus.

**Will King** recently transferred from Florida State University to UF, where he plans to continue his major in history beginning in January. Right now, he works full-time hours for Network Services as part of the team of student assistants who are installing cable and fiber optic lines across campus.

**Michelle Llena** began working as a student assistant in Information Services in June 2000. She is a UF junior from Guam, and is working on a major in advertising. She provides assistance with many documentation projects, including the Web-based versions of Update and Guidebook.
### Christina Neipert

Christina Neipert comes to NERDC after four years in the Army, where she achieved the rank of sergeant. A native of Old Town, FL, she is currently enrolled at Santa Fe Community College, where she is majoring in computer engineering. She will be working with Network Services on networking documentation.

### Richard Swilley

Richard Swilley, a graduate of Santa Fe Community College, recently returned to school at UF to major in computer science after working full-time for several years with a local company. He is assisting Network Services in the installation of fiber optic cables around campus.
