Virtual Tour of NERDC Available Online

When most people think about NERDC, they conjure up the image of a sign-on screen or text-prompt. Now you can see the inside workings of NERDC without having to leave your computer.

The NERDC Tour, available at http://www.cns.ufl.edu/tour, will take you behind the scenes and show you the hardware and "warm"-ware (people) that comprise the data center.

This guided look at the data center points out areas of interest from the machine room where we house our large-scale computers to the NERDC News item bulletin board. The tour also includes a resource list available to NERDC’s users.

So, drop by and take a Web tour. Day or night, it’s ready for you!

Bonnie Foxx of Operational Services is one of many behind-the-scenes people who keep NERDC systems running
