Resolve to Change Your Password

We're not quite halfway through 2001 yet, but it's always a good time to keep your New Year's resolution to change your password! Change your password often. NERDC and GatorLink account passwords should be changed every 180 days (six months) at minimum. It's also a good idea to change your password before leaving for the summer since it may expire during that time, thus giving you one more thing to do when you get back.

Have you changed your password lately? According to state auditors, you should change your password even more often if you have access to sensitive and/or confidential data. Under such circumstances, we recommend you change passwords at least every 90 days.

For more information, see the DOCWEB article D0007C [http://docweb.cns.ufl.edu/docs/d0007c/d0007c.html], General Information: NERDC Computing and Facilities Part 3 of 7: Userids and Passwords. You can access this and other DOCWEB articles via the Web at http://docweb.cns.ufl.edu. Type in the document ID (D0007C) and click on the Get-It! button.
