Introduction

Senior Network Engineer Ryan Vaughn was selected as one of two Gabor/HRH award winners at the University of Florida University-wide Superior Accomplishment Award ceremony held May 30, 2001. Vaughn competed with close to 100 other division winners for this honor. He had previously won a Superior Accomplishment award for Division Three, which includes all schools, colleges, departments, and units under the Office of the Provost and Vice President for Academic Affairs.

Vaughn was the first UF employee to earn the prestigious Cisco Certified Design Professional certification and has excelled in his management of UF's large, complex computer network. Described as a superlative ambassador for UF, Vaughn is committed to customer service and infused with a positive attitude that has never faltered during a technically and politically challenging project.

The honor includes a plaque and a cash award. Congratulations, Ryan!
