NERDC Virtual Tour Updated

If you haven't looked at NERDC's virtual tour lately, now's a good time. We have updated our online tour to reflect changes and upgrades.

When most people think about NERDC, they conjure up the image of a sign-on screen or text-prompt. Through the tour, you can see the inside workings of NERDC without having to leave your computer.

The NERDC Tour, available at http://www.cns.ufl.edu/tour, takes you behind the scenes and show you the hardware and "warmware" (people) that comprise the data center.

This guided look at the data center points out areas of interest from the machine room where we house our large-scale computers to the NERDC News item bulletin board. The tour also includes a resource list available to NERDC's users. So, drop by and take a Web tour. Day or night, it's ready for you!

Tape Operator Nancy Freimuth, from the NERDC virtual tour.

Your Comments are Welcome
