Welcome to Sandy McArthur, Linda Toral!

Kenny Denman Recognized for 15 Years of Service

Greg Goddard Completes Degree
Welcome to Sandy McArthur, Linda Toral!

Two new employees joined the data center recently. Sandy McArthur and Linda Toral both started full-time jobs here in May.

McArthur has worked at NERDC since last fall as a student assistant and became a part of the full-time Open Systems Group (OSG) staff in May 2002. He previously owned a computer consulting company and worked for SunState Federal Credit Union.

Now, he'll be helping with documentation-related tasks in the OSG. "I really like the atmosphere here at NERDC," he said.

Linda Toral's new job at NERDC utilizes only a fraction of the degrees she's earned. Besides a computer science degree from the University of Tennessee, Toral has a degree in French, also from UT, and a degree in secondary education from the University of California at Berkeley. Before she started work at NERDC in May, Toral worked for UF's Information Systems, where she worked on projects such as fee payment by credit card and the position vacancies application; the CIO's office, where she helped program the Document Imaging application; and the International Center, where she helped develop the Faculty and Scholar's application.

She joined NERDC as a Coordinator of Computer Applications. Her current assignment is as a member of Jim Arnette's team, developing a new telephone-billing application.

When she's not at work, Toral enjoys music, nature, and travel.

"I am very excited about starting a career at NERDC. I am already friends with many NERDC employees and everyone here has made me feel welcome. I look forward to many years of work in this pleasant environment," she said.
Kenny Denman Recognized for 15 Years of Service

Kenny Denman, network monitoring specialist for NERDC Operational Services, was recognized for 15 years of service with a service pin. "We are fortunate to have Kenny here. His skills in all areas of customer service are outstanding," said Bill Carr, Operational Services manager. Congratulations, Kenny!

Greg Goddard Completes Degree

Greg Goddard of OIT-Network Services graduated with a Bachelor of Science in Computer Engineering on May 4th. Congratulations, Greg!
