Spring IT Orientation and More Peer2Peer
This Month

Online courses aren't your only opportunity to participate in training on campus. In March there are two more chances to connect with your peers and soak up valuable information right here on campus. The spring Information Technology (IT) Orientation is going on this month, and another Peer2Peer session will give you knowledge you can use every day. Both of these educational sessions are available free to UF faculty and staff.

IT Orientation

The Information Technology Orientation will be held on March 4 in Room 316, Stadium West, from 1:30-4:30 p.m. The orientation is intended for newly hired IT staff or current IT staff who would like a refresher on the responsibilities of IT personnel at UF and the resources available to help them meet those responsibilities. For more information, see http://www.cns.ufl.edu/itorientation.html.

Peer2Peer

Peer2Peer is an informal and informative series of training sessions providing the University of Florida IT technical community with information on the resources and information available to them via our own experts.

The next Peer2Peer session will be held on March 31 in Room 282 at the Reitz Union, from 9 a.m. to noon. Peer2Peer sessions are open to the public. For information about the specific topics offered, please see http://www.it.ufl.edu/training/peer2peer.

Your Comments are Welcome
