Start-of-Term Load Heavy for CNS Mainframe

CNS staff anticipates that z/OS (mainframe) system load will be near or at capacity during the first week of Spring semester (January 3-7). During this time period beginning-of-term work supporting schedule adjustment is our top priority. The system has been tuned to favor this student-related work load.

CNS is deferring other CNS z/OS work until after this peak period. We request that other units schedule their z/OS work to avoid this peak period as well. We appreciate your cooperation.

For More Information

If you have questions or concerns, please contact the CNS Support Desk at (352) 392-2061 or consult@lists.ufl.edu

Your Comments are Welcome
