Peer2Peer and IT Orientation: It's That Time Again!

Two popular programs are available this month as Peer2Peer and IT Orientation return to the IT Training lineup. Both of these educational sessions are available free to UF faculty and staff.

In March you have two chances to connect with your peers and soak up valuable information right here on campus. The spring Information Technology (IT) Orientation is scheduled for March 3, and another Peer2Peer session on March 30 will give you knowledge you can use every day.

The Information Technology Orientation will be held on March 3, 2005 in Room 316, Stadium West, from 1:30—4:30 p.m. The orientation is intended for newly hired IT staff or current IT staff who would like a refresher on the responsibilities of IT personnel at UF and the resources available to help them meet those responsibilities. If you have employees who are new since October 2004, you might want to consider sending them. To register, go to http://www.hr.ufl.edu/training/springregistration/itstaff/default.htm Peer2Peer is scheduled March 30 from 1:30—4:30 p.m., also in 316 Stadium West. Registration is not required. Speakers will be:

- Jordan Wiens – Slipstream Windows Install CSs
- Steve Ulmer – SPAM Filtering
- John Madey – VOIP – including a demo

Peer2Peer is an informal and informative series of training sessions providing the University of Florida IT technical community with information on the resources and information available to them via our own experts. Peer2Peer sessions are open to the public.

For more information about the specific topics offered, please see http://www.at.ufl.edu/p2p.
