Peer2Peer Offered July 14th

Summer is a great time to get caught up with IT training! One of our most popular programs returns in July.

The Peer2Peer workshop is available free to UF faculty and staff. Peer2Peer is an informal and informative training session providing the University of Florida IT technical community with information on the resources available to them via our own experts. Peer2Peer sessions are open to the public.

With Peer2Peer, you have a chance to connect with your peers and soak up valuable information right here on campus. The session will give you knowledge you can use every day.

Peer2Peer is scheduled Thursday, July 14th, from 1:00-4:00 p.m., in Florida Gym room 270. Registration is not required.

Speakers will be:

• Dave Pokorney - Florida LambdaRail
• Mike Kutyna - Grid Computing
• Vinnie Taranto - Accessibility

For more information, please see http://www.at.ufl.edu/p2p or send e-mail to ittc-l@lists.ufl.edu [mailto:ittc-l@lists.ufl.edu]. See you on July 14th at 1:00 p.m.!

Your Comments are Welcome

We welcome your comments and suggestions on this and all CNS documentation. Please send your comments to:
