Designed for the end user, this session will raise awareness of faculty and staff on topics including safe Web browsing, principle of least privilege, malware threats, e-mail safety, choosing a good password, encrypting and backing up files, and wireless security. The class is very interactive with discussion topics that get the participants thinking about how to protect their personal computers and work computers both at home and in the office.

Please let your staff and faculty know about this course. With all the bad guys out there, this is important information!

The course is free, but seating is limited. Sign up now at myUFL [http://my.ufl.edu/]. To self-register, sign on to myUFL and navigate to My Self Service > Training & Development. You can then search by date, title, or course number.
