New Employees Welcomed ................................................................. 3
New Employees Welcomed

This month, /Update welcomes four NERDC staff members and three new student assistants, two of whom are consultants.

*Bruce McIntosh*, a senior engineer in the Teleprocessing section, joined NERDC in October. He previously worked for the UF Division of Housing. His responsibilities at NERDC include maintaining and troubleshooting the campus core network. While at Housing, he was responsible for troubleshooting PCs, purchasing, user support, and designing and implementing DHNet, the Housing network for residents.

*Tina M. Mader* joined the Information Services section as assistant editor in September. She moved back to Florida after a year in Cuyahoga Falls, Ohio. Her responsibilities include the production of documentation, including /Update and other NERDC publications.

*Joella Walz*, who began in August, answers the phones and guides customers to the Support Desk for assistance and technical support. She previously worked at Lake Forest Elementary School. Before starting at NERDC, she spent the summer in Kenya, Africa, with her husband, a UF Ph.D. student.
Nancy Watson, a UF employee for 11 years, joined NERDC in October. She is a student in the College of Business Administration, and has worked at UF as a secretary, senior fiscal assistant, and most recently, administrative assistant for the Office of Information Technologies and Services. Currently, Nancy is providing administrative support for the NERDC Teleprocessing section and campus networking services.

The NERDC Support Desk welcomed student consultants Brad Biglow and Dave Kennedy, both of whom joined us in September. They both work 20 hours a week on the NERDC Support Desk.

Brad is pursuing a Ph.D. in Anthropology, with a focus on education, technology and the role of development among indigenous peoples. He came to Gainesville from Flagstaff, AZ, where he received his Master’s degree and worked in Systems Administration in athletics.

Dave is working on his Master’s degree in Anthropology. Before studies brought him to Gainesville, he lived in Austin, Texas.

Information Services also hired student assistant Justin Roe. Justin, a freshman, studies zoology with a focus on pre-veterinary coursework. At NERDC, he spends about 20 hours a week helping with the conversion of publications to the World Wide Web, keeps the document racks stocked, and other office duties. Justin moved to Gainesville from Fayetteville, AR.
