Bits & Nybbles by Marie Desjardin

In the following cartoon, which appeared in the September 1981 /Update, Marie Desjardin noted a strange phenomenon -- people talking to their computers.

Well it's 1997 now, and to help NERDC celebrate its 25th Birthday, Marie has reincarnated her comic strip, just in time to note that computers are really starting to talk back! You can help NERDC celebrate too, by visiting the photo gallery on the NERDC History Page at http://www.cns.ufl.edu/info-services/history. Who knows who you'll see in bell-bottoms!
