UF Planning Internet2 Day

Internet2 Day is being planned for Fall 1999. The University of Florida Provost's Office and the NERDC Instruction and Research Users' Committee will sponsor a half-day "Internet2" workshop to share information on UF and NERDC's participation in the Internet2 project, and explain how various segments of our computing community can benefit from and use this endeavor.

For more information about Internet2 Day at UF, please see:
http://www.cns.ufl.edu/info-services/i2

Both local and national experts will address a variety of topics related to Internet2, and will answer questions regarding current and future applications.

For more information, contact Vicki Kitts-Turner, NERDC Information Services coordinator, at (352) 392-2061.

Your Comments are Welcome
