Steve Ware Elected to AITP Presidency

The North Central Florida Chapter (#298) of the Association of Information Technology Professionals elected Steve Ware, NERDC Systems Coordinator, to lead the group in 1999. Ware, who has been in the group since the early 1980s, said he's happy to be an active participant in AITP.

"I was willing to help out. There's a core group of people who volunteer. I just want to do my part," Ware said. His duties as president will include running board and chapter meetings and creating the group's Web site.

This term will be Ware's second turn at the presidency of AITP. In the past, he's also been Education Chairperson, Treasurer, and Vice President.

The group meets monthly to discuss topics of interest to professionals working in the Information Technology field. Recent meetings have covered topics such as: Linux, Internet2, Digital Audio, Internet Search Techniques, Windows NT, etc.

"We try to encourage feed-back from the members about what topics we'll have presented at our meetings. Right now we're on a push to get local companies to present," Ware said.

In addition to the monthly dinner meetings, the group tours sites of interest.

The group is open to anyone with an interest in computers and information technology. If you are interested in joining the group or attending a meeting, e-mail aitp@afn.org or check out http://www.afn.org/~aitp for a meeting schedule.
