Kathy Davies says goodbye to NERDC

Kathy Davies said goodbye to NERDC on February 18, 1999. Friends gathered to wish her well with a cake and gifts. Davies worked at NERDC for more than three years in the DB2 group as a coordinator of computer systems. Before coming to NERDC, Davies worked in the Office of the University Registrar (OUR) for eight years. At OUR, she was in charge of the online Drop/Add system, helping with registration and electronic transcripts.

Davies, who has been with the University of Florida for a total of 16 years, will still be on campus at her new job. In her new position as coordinator of computer applications at UF’s Center for Studies in Humanities and Social Sciences, she will be responsible for creating a Web-based searchable database for national benchmarking at the discipline level.

"This database will allow public universities to compare themselves to each other for benchmarking, productivity analysis and accountability projects. I think this new position will be challenging and a lot of fun. I will be branching away from mainframe programming (which I have done for the past 16 years) and using more PC-based applications."

"I will really miss all of the nice friends I made at NERDC. Everyone there was a joy to work with," Davies said.
